

Data Retention Policy

Document ID: POL-002 | **Department:** Data Engineering | **Effective Date:** 2026-06-30 | **Status:** Active

1. Purpose

Defines how long ACME retains different categories of data and the process for secure deletion or anonymisation. Owned by Data Engineering (Chen Wei).

2. Retention Schedules

Transaction records: 7 years (regulatory requirement). Customer PII in UserProfile-API and DataWarehouse: anonymised after 90 days per GDPR. Incident reports (e.g., INC-201 through INC-205): 3 years. System logs: 1 year. Backup snapshots: 30 days rolling.

3. Data Deletion

Deletion must be coordinated by Chen Wei (Data Engineering). Involves: removing from DataWarehouse, purging from UserProfile-API backing store, notifying Billing team (Priya Sharma) if transaction data is affected.

4. Backup Procedures

Follow SOP-02 (Data Backup and Recovery) for all backup operations. Backups are encrypted at rest and stored in geo-redundant locations managed by Infrastructure (Marcus Lee).
